a. Varian Associates proposed a delivery date of 29 May 1987 for 30 each urgently needed klystron reflex tubes, a delivery totally unacceptable to OIT. Diligent expediting, as well as making Varian aware the contract carried a DO priority rating resulted in an immediate token delivery with the balance anticipated by 30 January 1987.

c. On 28 November 1986, Procurement Division, Office of Logistics, received A request from Office of Information Technology, OIT, for two motor generators with a requested delivery date of 12 December 1986. These generators are for use with an IBM 3090-400 computer that will be installed in the area outside the computer room of the Northside Computer Center. Installing these units at a remote area will provide needed space for hardware projected to be installed in fiscal year 1987 and 1988. Procurement was competed and a contract in the amount of \$54,300 was awarded to Power System and Controls, Inc., of Richmond, Virginia on 4 December 1986. The contracting officer was able to meet the required delivery date of 12 December 1986.
